EXTEND THE OUTDOOR SEASON: CARRY SUMMER INTO FALL

*With Outdoor Leisure's® new patio umbrella stand heater,
bring heat to the feet and stay warm outdoors!*

BOWLING GREEN, KY (June 2005)- Summer's end is never a welcomed event. Now, thanks to **Outdoor Leisure's** new patio table umbrella stand heater, the summer season can be extended! This *first of its kind* under-the-table heater increases the surrounding temperature by 10 to 15 degrees, thereby increasing lower body and feet warmth. Perfect for enjoying a fall evening, the Outdoor Leisure® under-the-table heater will keep the heat up when the temperatures fall.

This revolution in heating is the newest concept being introduced in "the outdoor room," the fastest growing segment of the home improvement industry. Designed to accommodate most patio umbrella poles, this under-the-table electric heater is a perfect patio accessory and can be used with or without an umbrella. With a sleek, elegant black satin finish, consumers will appreciate its appearance and practicality as a welcome addition to the patio. This new heater provides the comfort of indoor warmth while enjoying a fall evening outdoors.

"As the industry expands the 'outdoor room' category, an under-the-table patio heater will be a new standard accessory," says Griffin Bland, Senior Products Manager, Outdoor Leisure.

The electric heater comes equipped with a six-foot long power cord and a weatherproof, lighted power switch, allowing access to any standard 120-volt receptacle. No assembly is required and units are CSA tested and approved. Designed for outdoor use only, the **Outdoor Leisure** patio table umbrella stand heater retails for \$99.00, and is available exclusively at Lowe's.

Outdoor Leisure® is a brand name of **DESA Heating LLC**, a growth-oriented, manufacturer and leading marketer of zone heating home comfort products for the consumer and professional markets in the U.S., Canada, and abroad.
